MINOR COINS OF LATIN AMERICA

This catalogue includes over half of the remaining $10 - $100 minors from the Chamberlain and Peña collections. Additionally, it includes a nearly complete selection of the scarce dates in the Bolivia Republican series - a group assembled from the Cunietti and Morton collections. Overall, this listing is somewhat comparable to the rather exceptional Bendaña collection offered by us last spring.

As we strive to maintain our position among the foremost sources for better Latin American coinage, we once again solicit the purchase of your collection or duplicates. If you have any better material available, please call or write.
